

# Graphic Design for Junior Rangers

Project Title	Graphic Design for Junior Rangers
Project Summary	Help the rangers at Gila Cliff Dwellings National Monument update the graphics for the junior ranger program.
Country	United States

## Project Description

When you visit a national park have you ever completed a Junior Ranger program? For many young kids (and young at heart adults) completing a Junior Ranger program and receiving their badge and certificate is a highlight of their trip. Join park staff at Gila Cliff Dwellings in updating the graphics for the park's Junior Ranger booklet to give it a cohesive, professional and put together look. You will work from home 10 hours a week, using your own software and artistic ability in your choice of art media to come up with the graphics.

## Required Skills or Interests

### Skill(s)

Design thinking

Graphic design
